ADMISSION

Students are eligible for the ninth grade provided they have successfully completed elementary and junior high school requirements and have demonstrated the ability to be successful in high school. An incoming ninth grader must take the High School Placement Test and have the recommendation of his/her Principal and eighth grade teachers. Admission is determined by eighth grade report cards, placement test results, and recommendation from each student's current junior high school. If need be, an interview will be scheduled to determine admission. Placement into freshman advanced courses is determined by the placement test scores and/or a subject readiness test, scheduled on an alternate date. Students who apply for admission into grades 10, 11 or 12 are required to present an official transcript and attendance records from the previously attended high school, have a personal interview with Saint Bonaventure Administration and have recommendation from their current Principal and teachers. Admission is determined by transcripts of good academic standing, the parent/student interview and the student's desire to attend.
